Mobile Wallpaper Packs

I will be releasing a new wallpaper pack this month. My first wallpaper pack was the Wonder Egg Priority pack. (that can be found on my website [HelloDesigner.online](https://www.hello designer.online)).

This new pack will feature 8 anime looking cities. And will be released later on in this month.

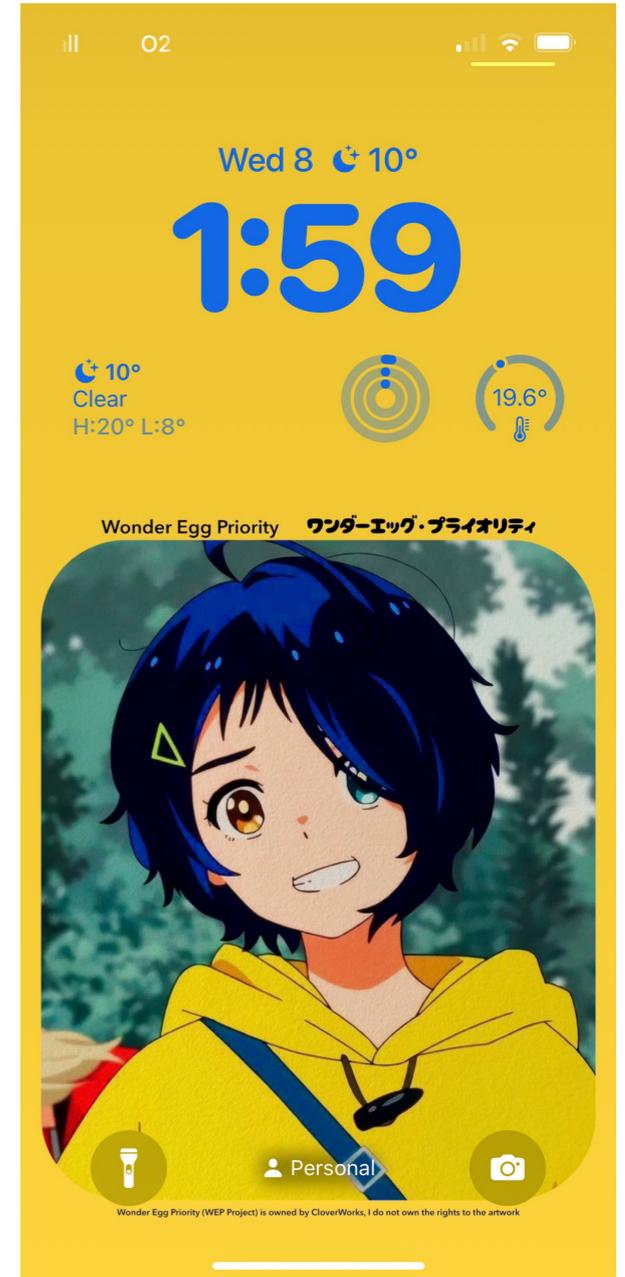

02 Wallpaper Packs

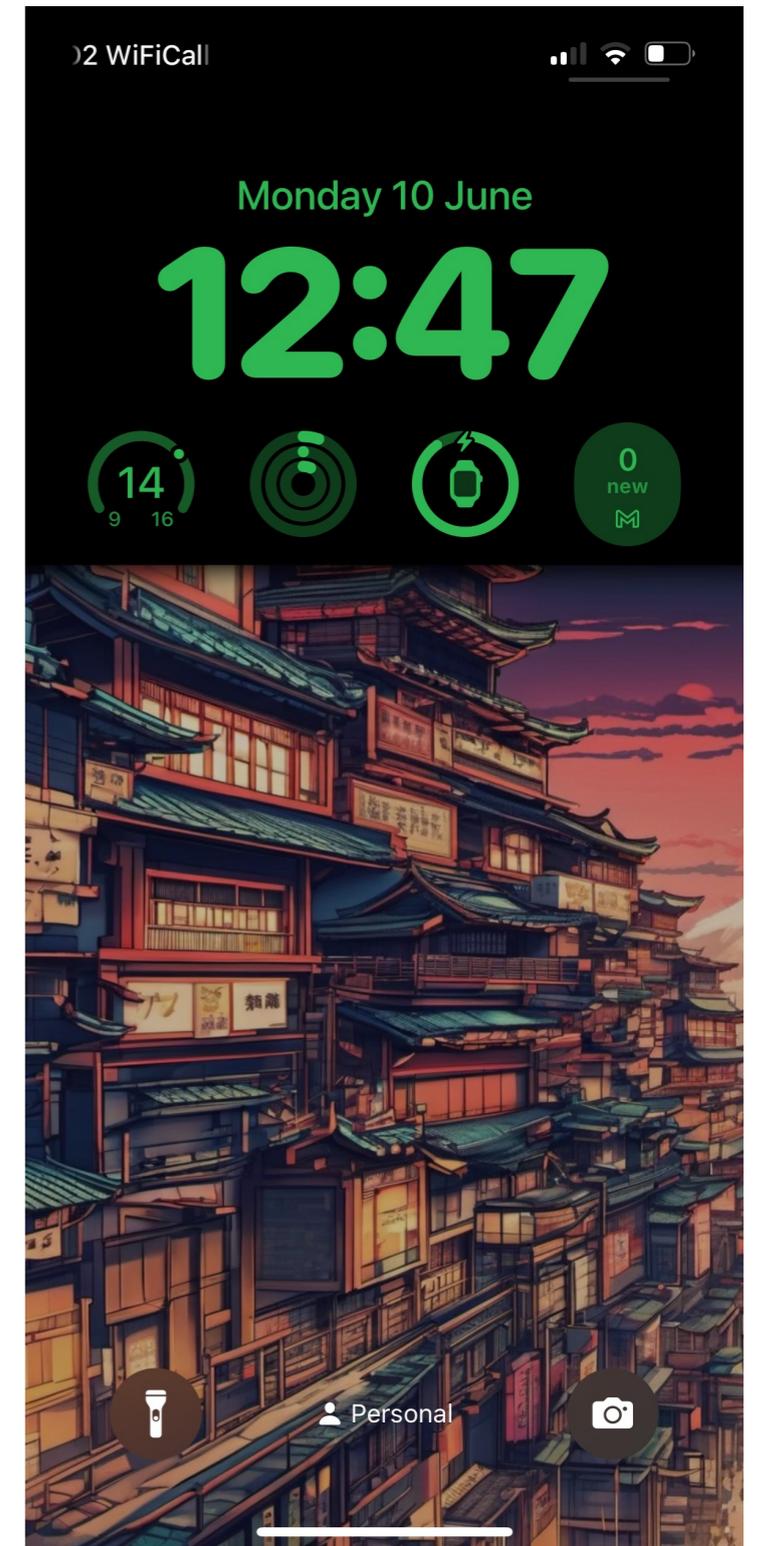

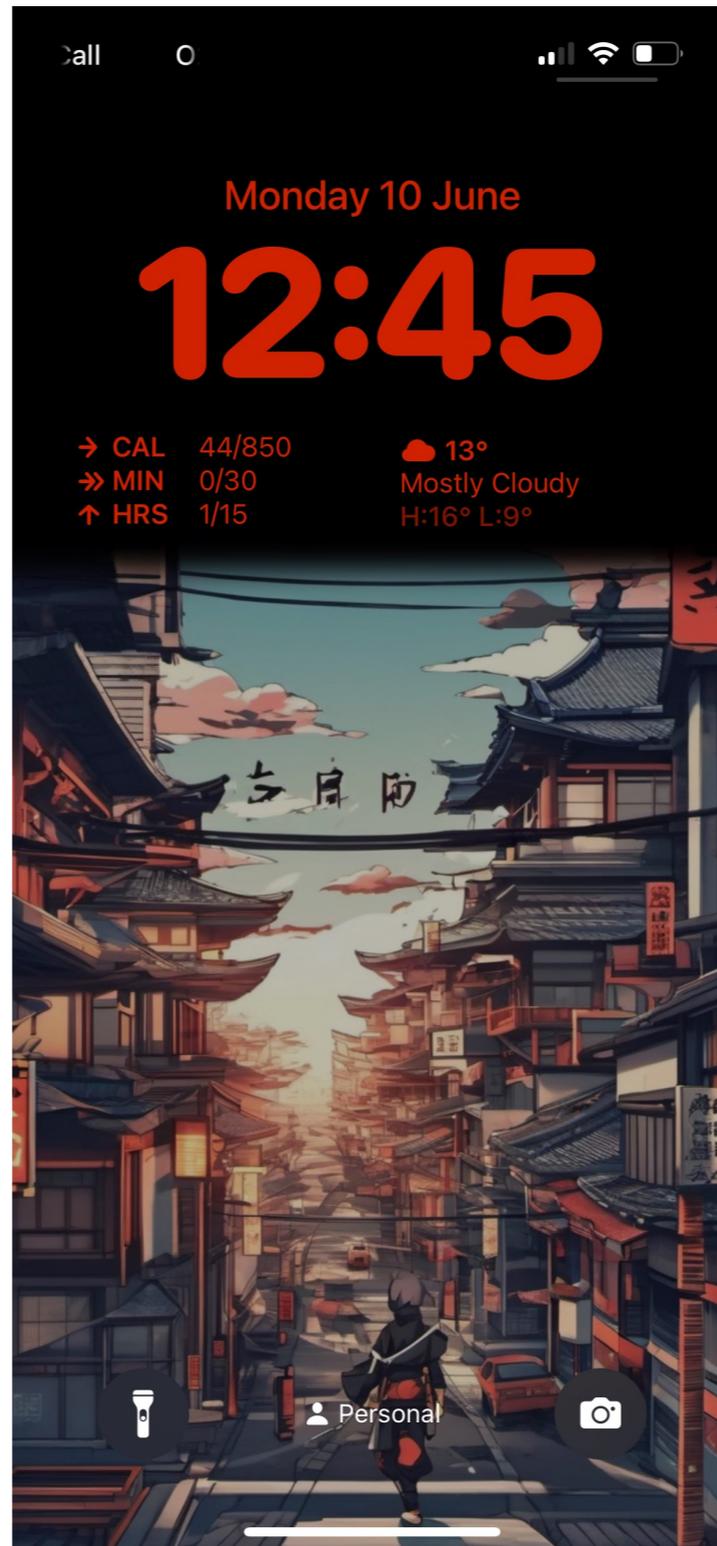

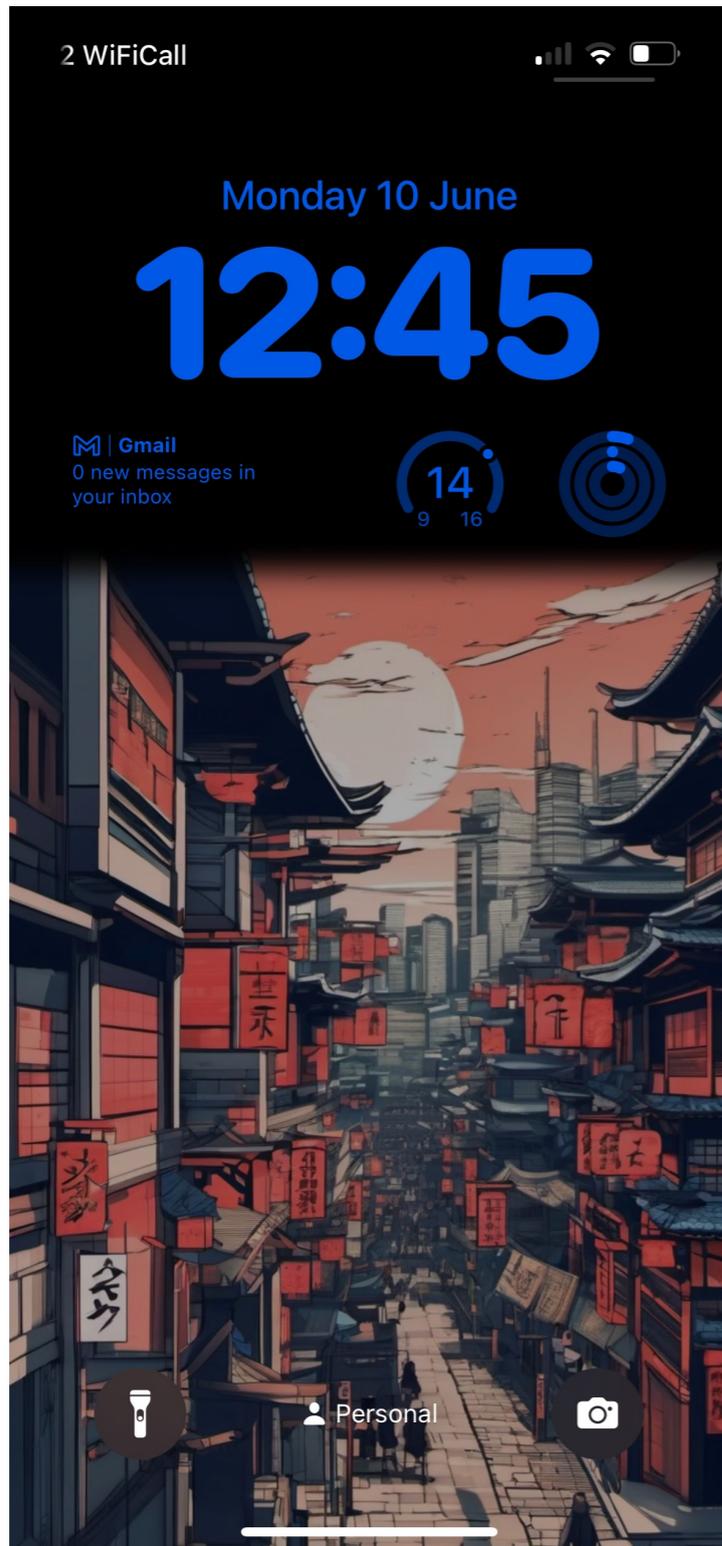

My first wallpaper pack is from the anime Wonder Egg Priority from CloverWorks Studio. It's about four girls trying to save a person that was close to them by freeing other victims that pop out of eggs that the four girls buy from vending machines...

It's a great anime with a dark subject matter. I loved the animation, the bright colours and the characters were also great.

03 Coming Soon!!

Anime City

This new pack will feature 8 anime style looking cities. And will be released later on in this month.
